Jen Balster, Administrative Asst. Ext. 3020 [jen.balster@k12.sd.us](mailto:jen.balster@k12.sd.us)

Dear Parents:

Our **fourth grade** students are about to study an important lesson on the early stages of puberty. The *Always Changing® Program* helps both boys and girls:

- Understand some of the physical and emotional changes they experience during puberty and acknowledgement that these changes are a normal part of growth and development.
- Understand that personal hygiene is each individual's responsibility.

In addition, the program helps girls:

- Understand the menstrual cycle.
- Understand what to expect during a period.
- Learn how to manage periods while continuing with normal activities.

Travis Slaba, PA from Avera Harrisburg clinic will be facilitating the boy's lesson. Your school nurse will facilitate the girl's lesson.

The *Always Changing Program* is based on national research and consultation with school nurses, health educators, parents and medical professionals. It has been a trusted resource for 20 years and has been taught to millions of students, nationwide. It is provided as a free educational service to our school by the Always® brand of feminine protection products. Students are separated by gender when presenting this program.

We will teach the program on May 11, 2017 at 2pm. **Please contact the health office if you prefer your child not to attend.** If you have any questions about the *Always Changing Program*, or if you would like to review the program materials in advance, please call your school health office staff, Laura Steichen, Lpn 605-743-2567 Ext 3292. If you would like to view the videos please go to [www.pgschoolprograms.com](http://www.pgschoolprograms.com). Thank you very much for your interest in this important education program.

Amy Gage, RN 605-743-2567 Ext 6102  
Nursing Supervisor
